NEW YORK, May S. Bradstreeth to-morrow will say: The relatively untav-orable features of the general business situation this week include unequasphable cool weather which at some contress has checked trade; continued surplus of stocks of cottons, which depress prices; duliness and kile muchinery in the whol-en goods industry; a failing off in the demand for lumber at St. Louis and Min-neapolis; continued duliness in iron and

are fairly active, there is a continued ab-

atecal, where, although mills anothermores are fairly active, there is a continued absence of new orders.

Chicago lobbers report the week's business in light seasonable fabrics only fairly satisfactory, and transactions in clothing smaller than in the like period a year ago. The leather market is weaker, owing to the lack of demand. Light hardware is relatively more active.

The favorable side of the picture includes a market horease in the total volume of bank electrings; a longer list of staples for which quotatious have advanced; an almost uniform and unexpected improved prospects for cereal and cotton crops, and the reflection of more condition feeling us to the autumn's business in an improved demand throughout the territory supplied by Si. Louis, Kansas City, Omaha.S. Paul, Minneaphila, Milwaukee, Dolath and Sloux Falls. The least favorable crop reports are from Okhoma, where wheat it in need of rain, and from Washington, where the wheat was hart by too much wet weather. In Texas forther improvement in the cotton crop outlook has stimulated the jobbers to send out travelers to anticipate the demand and the fegion of which Chatanooga is the commercial center, is enjoying the results of the extendion of the truck gardening Industry. Savannah's rosin and torpenline receipts and shipments are quite netive. The outlook for wheat in one terr Oregon is bright and the like is true of Kansas, Nebraska and Jowa.

## IN CONGRESS.

Senate.

Washington, May S. In the Souate to-day a bill to probibit the issue of United States bonds without the authority of Congress was introduced by Mr. Bacon (Dem., Ga.) and laid on the table for the present, Mr. Bacon stating that he desired horeafter to andress the Senate on it.

Mr. Mitchell (Rep., O-egon) gave notice that on the passage of the last of

demand for lumber at St. Louis and Minnenpolis; continued duliness in Iron and steel, where, although mills and furnaces are fairly active, there is a continued ab-

proceed to the consideration of the joint resolution for the amendment to the constitution providing for the pepular election of United States Sonaters.

The river and burbor bill was taken up. The committee amendment which direkts that all persons employed on the public works of engineering entrusted to the engineer department shall be selected and hired by the officer of corps of engineers in local charge of the works, gave rise to a discussion involving the question of civil service reform and the President's recent order of extension.

A point of order was made against the section that it was general legislation. After some discussion the point of order was sustained and the amendment struck out of the bill. The committee amendment as to the deep water instoor in Southern Callfornia was taken up. It provides for a breakwater at Port Port Los Angeles, Santa Monica Bay, and authorizes contracts to the amount of \$2,08,000.

Mr. White (Dem., Cal.) moved to sub-

\$1,488,000.

Mr. White (Dem., Cal.) moved to substitute for the committee amendment is provision for the appointment of a board to select a proper location for a deep sen harbor, the appropriation and contracts to be upplied to the point selected. This mandment was offered in the interest of San Pedro, the conjecting point. Mr. White advocated his amendment, He said two hoards of army engineers had reported in favor of San Pedro. The Sania Monica scheme, he stated, was urged by the Seathern Pacific railroad Couppany. Mr. White did not fluish his argiment.

At 5.15 the Senate adjourned.

At 5.16 the Senate adjourned.

In the House.
On motion of Mr. Dingley (Rep., Me.) It was agreed that when the House adjourns te-day it be until Monday.
A resolution was agreed to asking the President to inform Congress what had been done to carry out the provisions of the sanday civil appropriation bill for the current year, that regotiations be entered into with the government of Great Britain to secure the abrogation or modification of the regulations of that government requiring American cattle imported into England to be slaughtered at the port of entry.

at the port of entry.
Mr. Cannon (Rep., III.) introduced a bill appropriating \$5,000 to enable the President by use of the army or other-wise, to deport Canadian Cree Indians in Montana and deliver them 19 the Canadun authorities at the International boundary. Mr. Cannon explained that the Canudian autorities had agreed to receive and become responsible for them if delivered at once on the border. The billiums neced.

delivered at once on the border. The bill was passed.

The committee on accounts reported without recommendation the resolution repealing a joint resolution authorizing the appointment of clerks to members during the sessions of Congress and the resolution favoring members' clerks for the entire term.

Mr. Bingham (Rep., Ps.) moved an amondment providing that members that were chairmen of committees having annual clerks, should not have personal clerks. After considerable discussion and some confusion, Mr. Bingham's amendment was agreed to. Ayes 104; note \$4.

amendment was agreed to Ayes 104; noes 34.

As amended the resolution was passed—yeas 130; naye 108.

The first business to the regular order was the list of pension bills reported from the last two Friday night sessions.

Mesers. Erdman (Dem., Pa.) and Talbert (Dem., S. C.) sedured further delay in action upon a number of bills to which they were opposed by raising the point that they had but but a prepared. which they were opposed by raising the point that they had not been engrossed, which necessitated their being init aside.

which necessitated their being inil aside. Tweety-four bills were passed.
At 4.40 the House took a recess.
At the evening session Mr. Pickler (Rep., S. D.) chairman of the Committee on luvalid Pensions made a motion that the House resolve itself into a committee of the whole.

senters would be pressed, he would withdraw the motion.

The proposition was agreed to and business proceeded.

Nearly an hour was spent discussing the bill to pension the widow of Gen.
Thomas Ewing. The bill passed the Schate enrying \$160 a month and the committee on invalid pensions recommended a reduction of \$75. Mr. Tabert moved to further reduce it to \$50, and on that motion the whole question of pensioning officers' widows was dispulsable in the statement that Mr. Reed cannot be nominated, I shall have no hesitation in voting for Gov. McKinley.

The proposition was agreed to and business to provide the proposition of the statement that is evening and said he agreed with the views a capressed by mr. Smith.

The New York World desires to know why boll parties should not declare in favor of a sound and stable currency party question and should never be condaiderable difficulty in making the record are entirely in conflict with the tention. In the present Congress when the House bond bill went to the Senate the Finance Committee to whom it was referred reported back a tice coinage substitute. Every Demohave a party division with the Demo-crats on the wrong side as usual. The free coinage substitute was adopted by the Senate, the vote showing a Demoratic majority of plue in favor of a debased currency and a Republican majority of eight against it. The record, i will be seen, shows a clear majority of the Democratic Senators against honest money. When the substitute was sent to the House it was immediately killed, the Republicans giving a party majority of 165 against this Democratic measure and the Democratic members a majority of 33 in favor of it. If the World would only deal nonestly in discussing honest money it would attempt to correct and

The Truth About Protection. The New York Press says: One of the extraordinary manifestations of free trade mania in America is that those ell cred with it suffer a moral as well as a mental decay. In England, the founmin head of free trade, no such abourd c'aims are made for free trade as are adfuced by the mantic followers of Cobden in America. In Great Britain the conomists and lawmakers frankly admit that free trade in the United States s good for England and that protection here transfers to our own people the fruits of industries that formerly belonged to Great Britain. When we have free trade they do not congratulate us. They congratulate themselves and proceed to make bay while the sun shines openly laughing at our folly. When we tect an industry here and give em ployment in it to our own labor they do proving in it to our own moor may up not hestiate to eight either luck for losing a "soft thing" Wittiess the brutal truth of the English free trader in the following from the London Iron and

truth of the Eng lish free trader in the following from the London Iron ard Steel Trades Journal:

The trade returns issued this week show that this important Welsh trade (tin plate) contines to disminish in volume. The contraction is chiefly due to the diminish of the United States, which, in the returns for last month, are again very marked, the failing off for the quarter amounting to £371,631, or about 34 per cent. Lest failing off for the quarter amounting to £371,631, or about 34 per cent. Lest less that the contract of the United States, which, is the sagainst 50, 2801 tons, valued at £344,611, as against 50, 2801 tons, valued at £360,128, in March, 1895. The failing off in the exports to the United States is most marked, the failing off in the exports to the trade that country during last month only amounting to 8,998 tons, valued at £10,001; as against 18,745 tons, valued at £210,101; as against 18,745 tons, valued at £210,

We how find, according to the latest advices from the United States, that there are 35 black plate plants in operation, or ready to operate, with 150 black plate mills, dompleted. Most of these plants have the equipment to cont zome or all of their black plate; 2 of them have additional black plate mills, to the number of 13, in process of erection, while there are 3 black plate plants, with 6 mills, in process of construction. This makes a total of 37 black plate plants, with 175 mills, built or building. Of the black plate mills roady to operate, between 75 and 80 per cent. are lurning out their full quote of black plate. There are about 34 coating plants, and between 50 and 75 per cent. of them are in steady operation. Our exports of black plate for tast month also show a falling off as compared with the previous morth, and tend to show that the Americans, having got their mills in order, are now becoming independent of our supplies of black plate.

But where in all the United States will But where in all the United States will

utter so much truth as this testimony from British lips? Where will you find one who will admit that the McKluley tariff made employment for wage entuers here in the tin plate industry? Where tin plate industry has taken firm root on American soil and all that may be said and done will not alter the fact?" Where will you flad one to concede that a protective duty has barred out a Welsh cheap lubor competitor? Where will you geneering of sound money flad one to acknowledge that wage-carustick to the Democratic parit. Facts or here are e abled through protection are very subborn things and facts of to make a living in an industry that did not exist before the Mckinley law went into operation?

Nowhere in this country will you discover him. To get the truth from a free trader you must find him outside of the United States. within a whort distance of a fortified place. But if they are unwilling to meet our soldiers, they are yery active in committing all sorts of outrages against the country people they come across. Scarcely any one is left silve, for they proceed on the theory that every Cuban is a rebel, no matter what his attitude may have been.

"Among the atrocities Intely committed by the Spaniards I will describe the following: They are a fair example of the work they are doing. The column commanded by Gen. Luque entered the village of Maipaez, April 6th and ordered 25 families living there to leave their houses, which were intraediately pillaged, and afterwards set on fire. The whole village was consumed by the flames, and the poor inhabitants had to walk to the nearest place with nothing but the clothes they had on. All the objects stolen by the Spanish troops were later exposed for sale at the lown of El Quennado De Guines Don Luis-Munoz, an old man, sixty years of age and sick, his brottler. IMPERIAL CLUB Fourth Annual Banquet Fri-day Night,

The Imporial Ciub, the well known o ganization of commercial travelers, had its fourth annual banquet in this city last night at the Bangor House, and the ion was a great social success.

Previous to the bacquet a business meeting of the club was held at the hotel at 5 80 o'clock and various matters were noted upon. The following officers were

President, C. I. Anthony. Vice President, I. W. Sawyer. Sacretary and Treasurer, F. I. La-

utive Committee, F. W. Morrill, Eevis A. Dorntee, J. A. Schmidt.
It was voted to hold future annual meetings in January and to have a summer outing. Five new members were elected.

At 8 p'eleck, forty-sight members of the club sat down to a banquet which was served in the large diping room and Landlords Chapman provided one of their choicest menus for them. The service was admirable and the various courses were discussed with great religia aroused by the excellent cooking and the attractive manner of cerving.

The dining room | was hardsomely decorated with palms, plants and flowers by Mr. F. H. Moses, and each guest received a beautiful boutonniere. The decorations and the pleasant com-pany made the dining room an attractive While the banquet wis in progress Pullen's orchestra stationed behind

screens played a splendid programme of with the skill and harmony for which the organization is noted. The music was greatly enjoyed. The post prandlal exercises were much interest to all. Mr. A. R. Keltle
